QUOTATION

COMMERCIAL IN CONFIDENCE

1.) *PsycARTICLES*

Your Source for the Superior Research Published in APA Journals

Delve into the science of psychology and behavior with PsycARTICLES®, the database of full text peer-reviewed articles published by APA and affiliated journals.

Leading scientific journal articles to inform meaningful research

This esteemed collection from the foremost publisher in psychology provides access to the full spectrum of research in the field—from cutting-edge research from preeminent scholars, to the historical underpinnings of the behavioral and social sciences. With current journal coverage and historical content dating back more than a century, PsycARTICLES is an indispensable resource for researchers, educators, and students alike, and a must for any core collection.

Access to the latest high-quality research

Updated weekly, PsycARTICLES connects you to current full-text journal articles written by esteemed researchers from across psychology and the behavioral and social sciences. Discover the latest scholarship that will shape and inform your research.

A convenient, single collection of APA journals

With many journal issues going back to Volume 1, Issue 1, PsycARTICLES offers users complete access to research on specific areas of study—expertly indexed for easy discovery.

Rigorous research and scholarship you can trust

To ensure the highest quality scientific standards and scholarship, each journal article follows a meticulous peer-review process overseen by renowned APA journal editors.

Comprehensive & Current

PsycARTICLES offers access to the complete electronic catalog of APA peer-reviewed journals—back to Volume 1, Issue 1 for most titles—giving researchers the ability to explore more than a century of trusted research across the full collection. Updated weekly, the database includes First Posting of the latest articles, ensuring access to the newest findings and scholarship.

High Quality & Impactful

The high regard for and extensive use of APA journals is reflected in the fact that 70% of APA journals have received 2013 ISI Impact Factors®. In addition, many of these journals are ranked in the top 10 within their respective subject categories within Social Sciences and Science. Continuing its tradition of excellence, APA has been delivering fine scholarship and rigorous research since 1894.

Respected & Authoritative

APA journal editors are among the most esteemed scholars and scientists in the social sciences, and each one is selected through a very competitive process governed by the prestigious APA Publications & Communications Board. APA practices the most meticulous peer review process and also participates in the CrossRef CrossCheck program to guard against plagiarism.

Content Includes:

- Weekly updates
- More than 180,000 full-text articles from more than 100 journals
- All APA published scholarly journals
- Coverage for most journals from Volume 1, Issue 1
- Each journal employs a meticulous peer-review process
- Articles are available in PDF or HTML formats for easy navigation and downloading
- Includes journals from the Canadian Psychological Association, and the Hogrefe Publishing Group

2.) PsycINFO

A World-class Resource for Behavioral and Social Science Research

Centered on psychology and the behavioral and social sciences, the interdisciplinary content in PsycINFO® makes it one of the most highly utilized databases by students, researchers, educators, and practitioners worldwide, and an indispensable tool for the discovery of global scholarly research.

Discover the powerful interdisciplinary advantage of PsycINFO

With nearly 4 million records and upwards of 4,000 expertly-indexed records added each week, this ever-expanding collection of behavioral and social science research, dissertations, and scholarly literature abstracts offers a broad view of the field. With relevance to a host of related disciplines, including neuroscience, business, nursing, law, and education, PsycINFO delivers the peer-reviewed content and abstracts students and researchers need, and does so with remarkable precision and a dedication to scholarly and scientific excellence.

Explore the full breadth of research in the behavioral and social sciences with confidence.

Focused on the interdisciplinary aspects of the worldwide behavioral and social science research and literature, PsycINFO is unmatched as a resource for locating scholarly research findings in psychology and related fields across a host of academic disciplines — from the historical to the cutting edge.

Quickly locate trusted peer-reviewed research

Professional indexing by APA experts helps to enable a more effective research experience

Shorten the amount of time spent searching by easily identifying:

- Document types, such as journal articles, book chapters, book reviews, and editorials
- Specific research methodologies, such as clinical case reports, empirical studies and literature reviews
- Documents that have tests or assessment instruments appended
- Research from a specific grant or funding source
- And much more

Current & Comprehensive

PsycINFO remains one of the most current resources available for exploring and locating behavioral and social science research. It includes features such as First Posting for journal records ensuring access to the earliest publication of a journal article. PsycINFO offers a broad view of the behavioral and social sciences, and represents a time-tested core of research literature and findings necessary for any comprehensive psychology collection. Coverage spans from the 17th century to the present, charting the evolution of psychology over time through peer-reviewed journals, books, and dissertations.

High Quality

The content in PsycINFO is selected by APA experts based on quality and relevance to the field. Each bibliographic record is then meticulously created and reviewed by APA's skilled and knowledgeable staff. Additionally, record monitoring continues post-release to ensure the highest level of accuracy for each individual record. Complete database reloads occur regularly, allowing for ever-increasing functionality, the inclusion of new fields, and enhanced indexing features.

Authoritative

APA has been producing authoritative bibliographic records since the end of the 19th century, initially with Psychological Index and followed by Psychological Abstracts in 1927. PsycINFO was introduced in 1967 and since that time has been governed by policy direction from esteemed scholars and scientists from within APA's membership.

Content Includes:

- Over 2,500 journal titles covered—comprising nearly 80% of the database
- 99% of covered journals are peer-reviewed
- Authored and edited books and book chapters
- Dissertations selected from Dissertation Abstracts International (Sections A and B)
- Abstracts for dissertation records from 1995 forward
- Publications from more than 50 countries
- Journals published in 29 languages
- Non-English titles in Roman alphabets included from 1978 to present
- All records originally published in Psychological Index and Psychological Abstracts are in PsycINFO
- Most APA journals covered back to first issue of publication
- APA continues to regularly add historical records

Per institution pricing providing onsite and remote access to all registered staff and library members.
